CNET. "How Apple is squeezing more photos into your iPhone - FAQ: Apple's newest iPhone software attempts to move the world out of the JPEG era". Archived from the original on 2021-01-22. Some examples are: bzip2, LZMA2 and LZMA. ^ "File formats in Adobe Photoshop". Because the iOS Mail app automatically converts HEIF images to JPEG, this mitigated the problem.[58] PhotoHub supports the upload of HEIC but converts to JPEG or WEBP on display.[59] Discord supports HEIC by converting to other formats.
